

Lembar Tugas Web Programming III

Nama : Nur Fajriani Absri

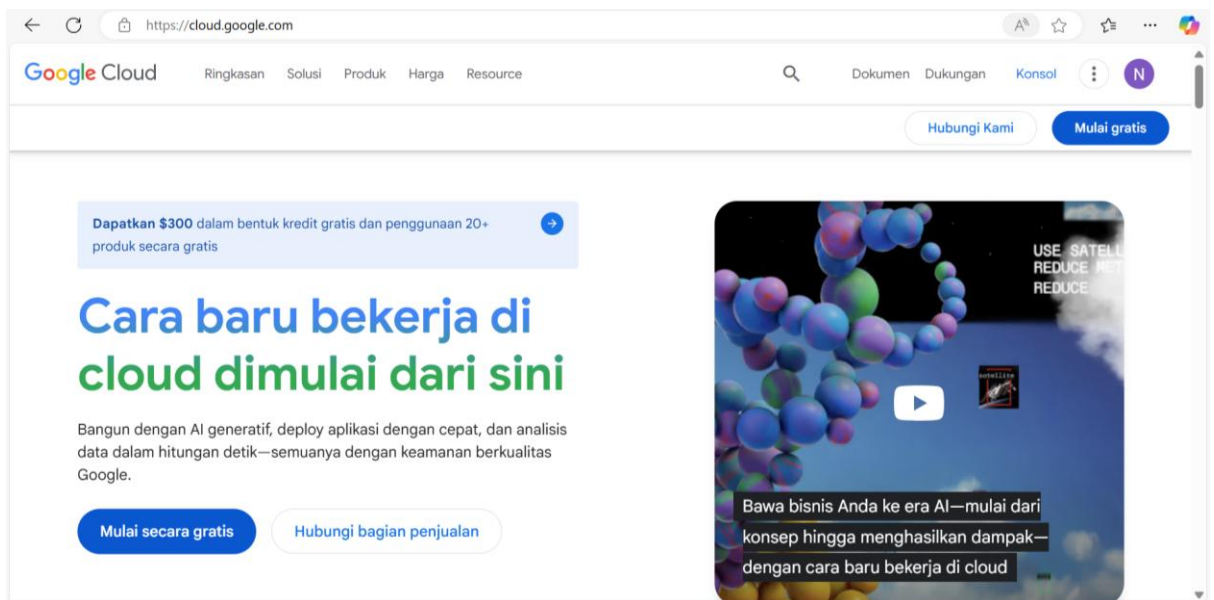

Kelas : 19.4A.05

Nim : 19230087

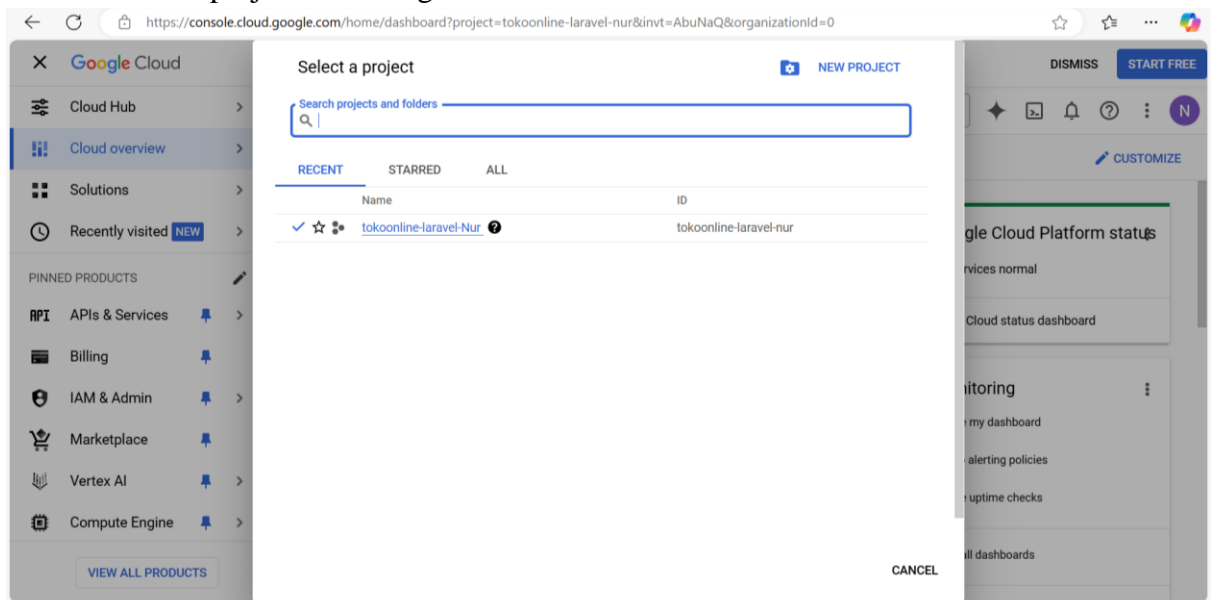

Mata Kuliah : Web Programming III

Pertemuan 3 Web Programming III

1. Login ke dalam google cloud pada <https://cloud.google.com/> dengan menggunakan akun masing-masing yang tidak pernah digunakan sebagai email saat pendaftaran sebagai USER pada DB Toko online (capture bukti login yang terlihat data akun pribadi – terdapat nama kalian)

2. Buatlah sebuah project baru dengan nama **tokoonline-laravel_NAMA**

3. Lakukan langkah penggunaan API Google sesuai modul halaman 34-38
4. Pada saat konfirmasi penggunaan email di bagian User Support Email, capture data email masing-masing (seperti tampilan langkah No 9 pada modul)

The screenshot shows the Google Cloud Console interface for the project 'tokoonline-laravel-nur'. The left sidebar contains navigation links: Overview, Branding, Audience, Clients, Data Access, and Verification Center. The main content area is titled 'Project configuration' and includes a progress indicator with four steps: 1. App Information, 2. Audience, 3. Contact Information, and 4. Finish. In the 'App Information' step, the 'App name' field is filled with 'tokoonline-laravel-nur'. The 'User support email' dropdown menu is open, showing 'nurfajrianiabris@gmail.com' as the selected option. Below the form, there are 'Next', 'Create', and 'Cancel' buttons.

5. Capture tampilan Client ID dan Client Secrets pada halaman <https://cloud.google.com/> serta tampilan hasil perubahan di VS Code masing-masing (langkah No 17 dan 18)

The screenshot shows the 'Client ID for Web application' page in the Google Cloud Console. The left sidebar is the same as in the previous image. The main content area has a title 'Client ID for Web application' and a 'Delete' button. Below the title, there is a 'Name' field with the value 'Web client 1'. A note states: 'The domains of the URIs you add below will be automatically added to your OAuth consent screen as authorized domains.' Below this, there are sections for 'Authorized JavaScript origins' and 'Authorized redirect URIs', each with a '+ Add URI' button. On the right side, there is an 'Additional information' section with a table containing 'Client ID' (506396634224-ikqs4id6pc303oeu3l1uh4ij65gp42ko.apps.googleusercontent.com) and 'Creation date' (April 8, 2025 at 8:55:10 PM GMT+7). Below this is a 'Client secrets' section with a table containing 'Client secret' (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), 'Creation date' (April 8, 2025 at 8:55:10 PM GMT+7), and 'Status' (Enabled). There is a '+ Add secret' button at the bottom of the 'Client secrets' section.

```
